From The Secretary's Desk

We are pleased to place the Annual Report for the year 2014-15, our 44th year in the Development field.

It is our pleasure to contribute effectively in this reporting year towards education of marginalized children through institutions and various programs. It's worth mentioning about girls'- educational sponsorship program which ensured continuing high school education for 550 poor girl children, checking their marriage at childhood. At Lord Buddha Home, children have made us proud this year with their good academic result and extra-curricular activities. Under CCCD (child centered community development program), government schools have become attractive and friendly to children- improving daily attendance and retention. As a support to primary health & education in villages, we have tracked last two years budget on JSY, Untied Fund, SDP and MDM at 5 different places. Child Reporters program, Slum Child-Labor Schools, mainstreaming the Children with Disability and others such program added many colors in the life of marginalized children.

“During 2014-15, two very challenging program on livelihood got started. First, Enhancement of 2500 tribal households in 41 villages under Khunti district which aims at increasing each family's income up to Rs.1, 20,000/- by 2020. And Second, Sustainable Livelihood Program for 21,600 un-employed youths through skill development and linking with sustainable livelihood.”

Satish Girija

During 2014-15, two very challenging program on livelihood got started. First, Enhancement of 2500 tribal households in 41 villages under Khunti district which aims at increasing each family's income up to Rs.1, 20,000/- by 2020. And Second, Sustainable Livelihood Program for 21,600 un-employed youths through skill development and linking with sustainable livelihood. Renewal of Support for Small Initiatives program; NBJK is playing vital role in capacity building of 140 social activists of small VOs of Bihar/Jharkhand- which in turn will benefit many thousands needy people of the community. Joining hands with The Resource Alliance, New Delhi has introduced partner VOs on new techniques and importance of local fund raising.

Under health sector, NBJK's contribution towards elimination of avoidable blindness has been significant in the reporting year covering 45497 OPDs (mostly rural poor patients), 500 cases of diabetic retinopathy and 8584 cataract surgeries (over 60% free or subsidized). We feel grateful to Dr. (Mrs.) Sudha Cugati, an experienced and royal fellow ophthalmologist in Australia, who stayed with us to serve people voluntarily. NBJK felt great challenge this year in providing required service and medicines to over 3000 mentally ill & epileptic patients in Bihar in lack of any funding support but had been active to help the very needy patients with its own means. The convention of people with mental illness & epilepsy has been very successful in developing community initiatives towards care & advocacy. Carers' organization building and self-help initiatives also got more strengthened giving encouraging result.

NBJK felt proud of getting recognition to voluntary sector by having Nobel Prize to Mr. Kailash Satyarthi and Padmashree award to Shri Ashok Bhagat. We extend our heartfelt congratulations to them.

We are very much grateful to all our donors, supporters, friends and staffs, those contributed for education to 1,29,148 children, eye care to 54,209, general health care to 9,589, access for disability therapy, aids & appliances and entitlements to 3,885 Person With Disability, sanitation facility to around 4,000 people every day and helped to create sustainable livelihood to 14,476 people of villages in the year 2014-15.

Secretary

Our Vision

To establish a progressive, peaceful and just society based on the values of equality, fraternity and mutual help.

Mission

To educate, organize and empower the rural poor to promote development as a liberating force for achieving social justice, economic growth and self-reliance.

Genesis

Four Engineering graduates who were highly sensitive to the causes of disparity, exploitation and poverty deserted their comfortable lifestyles and turned toward exploring ways to establish a “just society” in which no one remains hungry, unemployed, discriminated against or exploited. The four young engineers established Nav Bharat Jagriti Kendra in 1971, supported by the great sarvodaya leader Loknayak Jai Prakash Narayan.
